

CLASSIC® Hi-Viz

Size: 94x66cm

Thickness Availability: Single (4cm – 610gms/2m)

Plus One (7cm – 915gms/2m)

Colour Availability: Fluorescent Yellow – Black on reverse side

Comes with: Reflective binding in three areas

The original PolyPads® manufactured with a fluorescent yellow polycotton conforming to EN1150:1999 visibility clothing for non professional use with an added reflective silver tape around three sides over our normal binding, making it even more visible in poor light.

The underside is black which gives the reversible option if you wish to use it for schooling work as per a standard PolyPad.

The PolyPad is still made from the same quality durable polycotton easy-care material with the same fibre core providing easy maintenance of the product and providing the PolyPad protection you can trust.

PONY CLASSIC® Hi-Viz

Size: 81x54cm

Thickness Availability: Single (4cm – 610gms/2m)

Plus One (7cm – 915gms/2m)

Colour Availability: Fluorescent Yellow – Black on reverse side

Comes with: Reflective binding along the rear edge

The PolyPads® Pony Classic Hi-Viz reaches same high standard as the Classic PolyPads® but in a pony size and featuring reflective binding on only one seam making it even more visible in poor light.

The underside is black which gives the reversible option if you wish to use it for schooling work as per a standard PolyPad.

The PolyPad is still made from the same quality durable polycotton easy-care material with the same fibre core providing easy maintenance of the product and providing the PolyPad protection you can trust.

EXERCISE DUO® Hi-Viz

Size: Small (106x122cm) Medium (118x138cm)

Large (130x148cm)

Thickness Availability: Single (4cm – 610gms/2m)

Plus One (7cm – 915gms/2m)

Colour Availability: Fluorescent Yellow – Black on reverse side

Comes with: Fillet string, reflective binding along the rear edge

This ingenious all-in-one quarter sheet and saddle pad, providing all the benefits of the PolyPads® Classic® under the saddle running into a quarter sheet with a towelling underside over the quarters – designed to keep loins warm during exercise, without flapping and rustling.

The original PolyPads® Exercise Duo® is now manufactured with a fluorescent yellow polycotton conforming to EN1150:1999 visibility clothing for non professional use, making it even more visible in poor light.

The PolyPad is still made from the same quality durable polycotton easy-care material with the same fibre core providing easy maintenance of the product and providing the PolyPad protection you can trust.

UNIVERSAL[®] Hi-Viz

Size: 98x67cm

Thickness Availability: Regular (4cm – 610gms/2m)

Extra (7cm – 915gms/2m)

Colour Availability: Fluorescent Yellow – Black on reverse side

Comes with: Reflective binding across the back

This versatile high-profile oval saddle pad is now available in fluorescent yellow polycotton conforming to EN1150:1999 visibility clothing for non professional use with an added reflective silver tape across the back over the normal binding, making it even more visible in poor light.

Originally designed to accommodate horses with higher withers, the Universal[®] is shaped and bound along the spine, with an off-set double seam to reduce bulk. This makes it simple to fit as it lies naturally in position across the back, while providing more clearance over the withers for total comfort.

Both the front and back corners of the Universal[®] are gently rounded to follow the contours of the saddle and can also be used on the reverse side as there are no straps or loops to restrict you.

RRP £44.95 Regular
£49.35 Extra

LEG SPATS[®] Hi-Viz

Size: 16x45cm (Pack of 4 – One size fits all)

Thickness Availability: Standard (2cm)

Colour Availability: Fluorescent Yellow

Comes with: Towelling lining

Fluorescent hook & loop fastening (2 straps)

These new durable, super-soft, fluorescent yellow Leg Spats[®] with twin strap hook and loop fastening make the horse more visible when out riding.

Tests have proved that a moving Hi-Viz product creates a faster reaction from drivers but unlike most products on the market PolyPads Leg Spats[®] are made from polycotton with a towel inner lining so that they are more comfortable for your horse or pony.

They are one size fits all – just trim off any excess strap to fit – but they can also be worn on the rider's arms such is the vast size availability. Machine washable, these spats will prove invaluable for all riders.

RRP £30.99 4 pack

TAIL FLASH[®] Hi-Viz

Size: 35x45cm

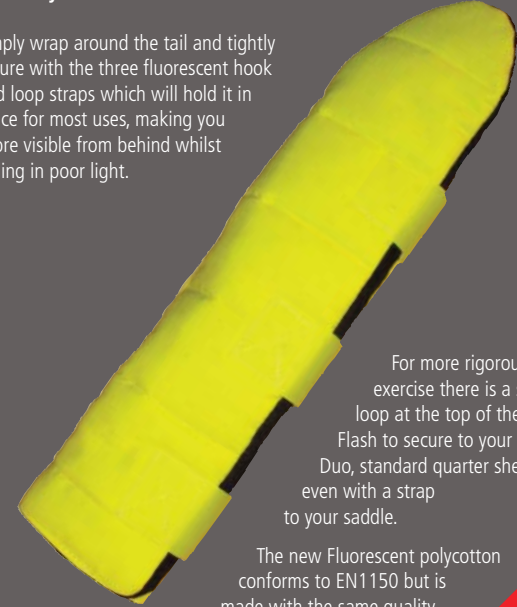

Thickness Availability: Standard (2cm)

Colour Availability: Fluorescent Yellow

Comes with: Towelling Underside

Fluorescent hook & loop fastening (3 straps)

Top loop to secure to Duo, quarter sheet or even to your saddle

Simply wrap around the tail and tightly secure with the three fluorescent hook and loop straps which will hold it in place for most uses, making you more visible from behind whilst riding in poor light.

For more rigorous exercise there is a simple loop at the top of the Tail Flash to secure to your PolyPads Duo, standard quarter sheet or even with a strap to your saddle.

The new Fluorescent polycotton conforms to EN1150 but is made with the same quality polycotton material you expect from PolyPads and will wash easily.

RRP £16.66
