## New Pink and Hi-Viz PolyPads

The original and still the best, PolyPads saddle pads are a British equestrian institution. Renowned manufacturer of innovative, well-made and versatile products since 1987, PolyPads is now entering an exciting new era under the fresh leadership of managing director Lee Buck. Lee is keen to preserve PolyPads' great British heritage whilst launching new products, designs, colours and ordering systems to help more people feel the difference a PolyPad can make. Already proving incredibly popular is the new pink range of PolyPads, for customers on the bright side of fashion. All PolyPads products from pads to travel boots are now available in pink.

### New!

Due to popular demand PolyPads is now producing a reversible high visibility saddle pad designed to help the horse stand out in poor light conditions. The pad is fluorescent yellow on one side (for road work) and black on the other (for yard work) and features reflective binding for added visibility – safety and performance in one tried and tested product.

### Promotional launch!

To celebrate the launch of the high visibility saddle pad, PolyPads is giving a 15% discount on five or more ordered pads to all Trade stockists.
